ANONYMOUS LETTERS.

Some Remarks About Letters That Have No Names to Them.

We are greatly annoyed by anonymous letters, notes, scraps of paper, postal cards and other similar communications that come through the mails, or are left at our office.

We are always duly thankful for items of news, large or small, and our friends could send much more than they do; but it is the news without name to which we object. More than this, persons send matters of importance for publication, and feel hurt at their non-appearance, never thinking for a moment that they failed to sign any name to the letter, or whatever it was they sent.

A newspaper cannot afford to publish the most trivial occurrence without knowing the source from whence it comes. Suppose we should receive through the post-office a card or note, stating that Miss Blank, of some place or other, is visiting some family, and it should be discovered that Miss Blank is a disreputable character, a disgrace to any family she might visit, would we not be in an embarrassed attitude without somebody's name to the card or note? Suppose the mere statement of a death or marriage were made on authority of a nameless piece of paper sent in, and the said event had not transpired? Such impositions have been practiced, and nothing ever happened that might not be repeated.

Great injury would be done a lecturer, a sale, or any other thing depending on a fixed date, by the publication of another date, and how easy it would be for an enemy to perpetrate such injury by an anonymous notice.

It is impossible to have a newspaper entirely correct when the utmost care is observed, but to publish all sorts of items from unknown sources would in a short time lead to ruin.

There is no reason why every message sent by mail or by hand to a newspaper should not be signed by the party sending it; not that the name should appear in the paper with the item, but be held by the editor for reference in case the news proved to be incorrect.

We cannot and will not publish anything whatever that comes to us from an unknown source, and we hope all communications will be properly signed, for otherwise they cannot appear in our columns.

"Why didn't you publish so and so, I wrote you about it?" we are often asked. "Because you failed to sign it" is the usual reply. "Why, I thought you'd know my hand-writing?" No, we can't recollect everybody's hand-writing.

Sign your name.

The Cherokee will open up their "strip" in Indian Territory to settlers, and another Oklahoma boom will be inaugurated.

Gen. Russell A. Alger, of Detroit, was elected commander-in-chief of the Grand Army of the Republic at its recent Milwaukee meeting.

The Turner-Howard war has reopened in Harlan, and the county judge wants soldiers. Harlan gave 570 Republican majority in a total vote of 842.

Mock, the supposed dynamiter, charged with attempting to blow up the Leader office in general and one D. T. Baxter, in particular, has been acquitted.

County Judge Pulliam, who killed James Miller, has been found guilty of manslaughter by a Bradenbury jury, and his punishment fixed at fifteen years in the penitentiary.

MORE TAXES.

Commander Warner of the G. A. R., in his speech to the veterans assembled in national convention in Milwaukee, last week, said: "The service pension will come. The day is not far distant when an honorable discharge from the Union army or navy shall be all the evidence required to secure a pension to its holders."

TWO QUESTIONS SETTLED.

Corporal Tanner, commissioner of Pensions, is a benefactor, after all that may be said against him, and demonstrates the truth of the old saying that "it is an ill wind that blows nobody good."

THE EXECUTIVE COMMITTEE MATTER.

Chairman Grubbs of the Executive Committee of the Kentucky Press Association has tendered his resignation to President Johnson.

The Hopkinsville South Kentuckian says it would probably be well for the entire committee to follow the example of the chairman.

The Standard Journal says that if the committee continue at the pace it has been going, the Winchester meeting, next year, will be a failure.

The Danville Advocate goes far beyond what we said, especially with reference to President Johnson.

The Georgetown Times says the committee needed shaking up and got it.

We could extend these remarks through a considerable list of editors.

Only one editor in the State comes to the rescue of the committee, and that is Mr. Pat McDonald, of the Frankfort Argus.

He had been misled into thinking we had asked to be made a delegate to the National Association. The gentleman will please understand that we did not.

The editor of the Mt. Sterling Sentinel Democrat, one of the committee, attempts to be facetious and sarcastic, and while failing utterly to offer any excuse for the committee, "lets the cat out of the bag," by remarking that he presumes we will release the names of the delegates. That is precisely why we were put at the head of the list—to stop our kicking.

So far as we can hear, the State was not represented in the National Association, owing to the late time at which the selections were made.

Thus ends another bloody struggle.

STATE POLICE.

General Basil Duke suggests that the coming Legislature enact a law authorizing a State police force, for the purpose of suppressing the mountain outlaws. They could be utilized effectively, he thinks, by suppressing rioters and similar offenders. He would employ them by the State at \$50 to \$60 a month, with headquarters at Frankfort. They should be wholly subject to the orders of the Governor, and always ready to move at a moment's notice.

General Duke thinks that such a force would be less unwieldy than militia and otherwise more effective.

General Duke doubtless looks at the problem from his experienced standpoint as a raider and fighter, and sees how readily he could, with such a body of picked men, embracing a few good rifles and a mountain howitzer, exterminate all the desperadoes in Eastern Kentucky in less time than would be required for a militia company to fill their haversacks and tell their wives and sweethearts good-by.

If the General could be induced to engage in the hazardous undertaking, and he could gather about him a chosen few of the old 2nd Kentucky, the heroes and henchmen of the various factions throughout the wild and woolly counties towards the Tennessee and Virginia lines would soon be where they would do the least harm.

But there are too many "ifs" in the way, and therefore we are opposed to a State police force. Every sheriff has it in his power to summon every man in his county, to arrest every offender, and that in our opinion is the speediest, safest and best treatment of the situation.

As we have heretofore remarked, the sheriff of Rowan county, with a strong posse of citizens destroyed the worst gang of outlaws that ever terrorized any county in Kentucky, and there is no reason why the sheriffs of other counties should not do likewise.

Railroads, capital, and a new people are rapidly penetrating every portion of Eastern Kentucky, and with the large number of good people already there, the Ritter Creek fellows will soon disappear.

Col. W. H. Polk, of the Lexington Dragoon, is now doing good work on the staff of the transcript. Col. William Henry Harrison Polk is the only man we know of, who can run two newspapers.

Resolutions adopted by the Ohio Democratic Convention, last Wednesday:

First—The Democratic party of Ohio, in convention assembled, approve the declaration of principles made by the National Democracy at St. Louis in 1888, and especially that part of it which demanded reduction of tariff taxes, and we will continue the battle for tariff reform until the cause of the people is triumphant.

Second—We regard trusts, in whatever form organized, as the legitimate result of our present tariff system; and we demand the repeal of all tariff taxes, that enable them to extort from the people exorbitant prices for the products they control.

Third—We again acknowledge the great debt of gratitude the nation owes the heroes of the late war, and we declare in favor of just, liberal and equitable pension laws.

Fourth—We denounce the Republican Administration for its repeated violation of its pledges in behalf of civil service reform.

Fifth—We denounce the present State Administration as the most partisan, demoralizing and extravagant in our history. We invite the careful investigation of all citizens into our financial affairs as shown by the official records.

Sixth—We protest against the repeated appointment of men having no qualifications for the position, to the office of State Auditor, and we demand that the office be made a permanent one, and that the Auditor be elected by the people of the State.

Seventh—The nomination of the Governor of Ohio for a third term in

violation of all precedent by the notorious and disgraceful use of patronage at his command is an outrage against the people, and should be rebuked at the polls.

Eighth—We heartily favor home rule in Ireland, and demand it also for Ohio. While favoring all laws that would protect the ballot-box and the honest voter, we demand the enactment of laws that will enable our cities to close their own sewers and control their own affairs.

A SPREADING SHADOW.

Those who are wrangling over the representative merits and claims of Messrs. McKenzie, Blackburn and Knott to go to the United States Senate, we would respectfully advise to look out for the shadow of John B. McCreary. It is gradually spreading over this section of the State, and when his own substantial personality is thrown into the fight it will be a wrestle with the gods but what he wins.—Harrodsburg Democrat.

Deafness Can't Be Cured By local application, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness, (caused by catarrh), that we can not cure by taking Hall's Catarrh Cure. Send for circulars free.
